Company Name :
Oceaneering International
Type of Industry :
Oil & Gas / Other
Period of Employment :
2007 - 2016
Position :
Senior Technician
Promoted from Junior Technician
Duties :

Oceaneering International is a Remote Operating Vehicle company servicing the oil and gas fields on oilrigs.

He started as a Junior Technician and worked his way up to Senior Technician. His main responsibility was to maintain and repair vehicles, he had to do hydraulic electrical maintenance and fault finding.
Did their own main lift wire returmation and also worked on fiberobtics for use of cameras and communication between pilot chair and vehicle.
Vehicles had to been maintained at all times due to the harsh conditions we work under and he also had to train new personnel.
Was responsible for daily maintenance and upkeep of stores.
HSE is vital in the offshore environment and very strict PPE use was mandatory.

Daily safety meetings and team talks.
He was responsible to provide reliable information to the client at all times.
Reason for Leaving :
Need to find employment in CPT; not great being away from his family.

Company Name :
Cilva Cell Woodchip
Period of Employment :
2004 - 2007
Position :

Shift Millwright

Duties :

Outsourced to sister company Mondi in the crane and hydraulic department and he also worked as shift millwright having to cover the plant over weekends and after hours.

He did his own store keeping after hours.

As a shift millwright, his responsibility was to diagnose the fault, repair and reinstate equipment as soon as possible.

He had to do his own lock out, tag out permits before doing his job and he had to make sure it is safe to do so.

He also did his own rigging and testing of equipment.

The job required him to think on his feet at all times, while working to HSE standards with the correct PPE.

He had to work on high voltage systems, as up to 11kv, with the correct procedures and PPE at all times.

He had to restate high voltage lines in the breaker rooms and also did load and testing on lifting equipment, load beams and cranes.

Reason for Leaving :

Opportunity to work off-shore
